Respected Sir/Madam,

I am writing to express my interest in **Full Time** Position. I am confident that my background and skills will prove to be an effective match for the qualifications required possesses excellent organizational and communication skills.

I am finishing my final year of education at **University at Albany, State University of New York** where I have been working towards my **master's Degree in Computer Science**. I'm graduating in May 2018. Moreover, I'm working as a **Software Developer Intern at New York State Department of Environmental Conservation** from Feb 2017 which is helping to gain sufficient experience in the field of Software Development and Database Systems. Therefore, I am eager to secure an existing position with your company for my future.

My course has focused on a variety of specialist tools such as Algorithm Analysis, **Software Development**, creating **Database Systems**, Artificial Intelligence, Analysis of Twitter Data, Data Mining, Machine Learning, **Data Structures and Agile Software Development – Scrum**. These have assisted me in broadening my knowledge while showing me the diverse side of Computer Science that I find fascinating.

I have gained further experience aside from my studies, through the **bachelor's internship program at Softvan Pvt. Ltd. as a Software Developer Intern** and **Software Developer Intern at vMakeIT Solutions**, the time spent there opened my eyes further to the creative challenges required in the industry and how it is forever evolving. I rapidly adapted to the new work culture and team members who became trusted associates throughout my time spent there. This internship solidified my beliefs in choosing this career path for myself.

I am fanatical about precision and order, enjoy problem solving and the challenges it brings with it and believe in team efforts. I am confident that I would be an appreciated and welcome asset to your company and I hope that you will give me the chance to interview for the available position as soon as possible.
